

Maltego Academic and NGO program demonstrates our ethics and values. At Maltego we empathise with organisations and individuals who set out to change the world through projects or research. We also empower the global young leaders of the future.

The program creates a community where we share knowledge among like-minded partners. We encourage continued innovation and empowering investigations globally.

GOAL OF THE PROGRAM

With the Academic program, we want to encourage continued innovation within the Maltego community:

- Create awareness with younger generations,
- Build new and exciting topics,
- Help us develop a strong foundation to take the next level,
- Make Maltego accessible to all investigators,
- Demonstrate Maltego values.
