

FOR CRIMINAL INVESTIGATIONS

Create criminal online footprints within minutes.

OSINT INTELLIGENCE

Tap into open source data for account identification and evidence collection to combat organized crime, human trafficking, and more.

SOCIAL MEDIA INTELLIGENCE

Build a comprehensive digital profile of criminals and uncover online criminal networks with over 170 social media sources.

DEEP & DARK WEB

Monitor chatter and obtain information from deep & dark web sites, forums, channels, and groups without any risk of exposure or technical prerequisite.

Built to support various criminal investigations.

ALL DATA IN ONE INTERFACE

Over 70 integrations with OSINT, social media, dark web, cryptocurrency, and other excel tables, internal logs, you name it.

Secure deployment with industry standard authentication.

DYNAMIC DATA VISUALIZATION

Visual mapping, layouts, and node weights to quickly spot hidden data connections and patterns.

Reduce the pain of manual data combing and free up valuable time for intelligence analysis.

BUILT-IN AUTOMATION

Set up automation for standardized workflows with codes so intuitive that your junior analysts can easily master.

One-click report generation and data export for evidence sharing and documentation.

Over **170 social media sources** and over **3 billion breach data entries**. Essential intelligence to track down criminals online.
